

Java

Q1	Write a Java program to print “Welcome to Java Programming” on the screen.
Code	<pre>class Welcome { public static void main(String args[]) { System.out.println("Welcome to Java Programming"); } }</pre>
Output	<pre>D:\WorkSpaces\Java\Assignments\Tut_1_2026>javac welcome.java D:\WorkSpaces\Java\Assignments\Tut_1_2026>java Welcome Welcome to Java Programming D:\WorkSpaces\Java\Assignments\Tut_1_2026> </pre>
Q2	Write a Java program to print your name, course, semester, and university name, each on a separate line.
Code	<pre>class StudentDetails { public static void main(String args[]) { System.out.println("Name: Raj"); System.out.println("Course: B.Tech Computer Science"); System.out.println("Semester: 3rd Semester"); System.out.println("University Name: RK University"); } }</pre>
Output	<pre>D:\WorkSpaces\Java\Assignments\Tut_1_2026>javac StudentDetails.java D:\WorkSpaces\Java\Assignments\Tut_1_2026>java StudentDetails Name: Raj Course: B.Tech Computer Science Semester: 3rd Semester University Name: RK University</pre>
Q3	Write a Java program to display the following student information in a properly formatted manner: Name, Enrollment No., Department, CGPA.
Code	<pre>class StudentInfo</pre>

	<pre>{ public static void main(String args[]) { System.out.println("Name: Smit"); System.out.println("Enrollment No.: EN12345678"); System.out.println("Department: Information Technology"); System.out.println("CGPA: 8.9"); } }</pre>
Output	<pre>D:\WorkSpaces\Java\Assignments\Tut_1_2026>javac StudentInfo.java D:\WorkSpaces\Java\Assignments\Tut_1_2026>java StudentInfo Name: Smit Enrollment No.: EN12345678 Department: Information Technology CGPA: 8.9</pre>
Q4	Write a Java program to print a simple college timetable using multiple println() statements.
Code	<pre>class Timetable { public static void main(String args[]) { System.out.println("-----"); System.out.println("Time Monday Tuesday Wednesday Thursday Friday"); System.out.println("-----"); System.out.println("09:00 AM Math Physics Chemistry Math Lab"); System.out.println("10:00 AM Eng Math CS Physics Lab"); System.out.println("11:00 AM CS CS Math Eng CS"); System.out.println("-----"); } }</pre>

Output	<pre>D:\WorkSpaces\Java\Assignments\Tut_1_2026>javac Timetable.java D:\WorkSpaces\Java\Assignments\Tut_1_2026>java Timetable ----- Time Monday Tuesday Wednesday Thursday Friday ----- 09:00 AM Math Physics Chemistry Math Lab 10:00 AM Eng Math CS Physics Lab 11:00 AM CS CS Math Eng CS -----</pre>
Q5	Write a Java program to display the following pattern using only print statements: ***** , **** , *** , ** , *.
Code	<pre>class Pattern { public static void main(String args[]) { System.out.println("*****"); System.out.println("****"); System.out.println("***"); System.out.println("**"); System.out.println("*"); } }</pre>
Output	<pre>D:\WorkSpaces\Java\Assignments\Tut_1_2026>javac Pattern.java D:\WorkSpaces\Java\Assignments\Tut_1_2026>java Pattern ***** **** *** ** *</pre>
Q6	Write a Java program to print a digital business card containing Name, Designation, Company, Email, and Contact Number.
Code	<pre>class BusinessCard { public static void main(String args[]) { System.out.println("====="); System.out.println(" Kishan"); System.out.println(" Software Engineer"); } }</pre>

	<pre>System.out.println(" Tech Solutions Inc."); System.out.println(" Email: kishan@tech.com"); System.out.println(" Contact: 1234567890"); System.out.println("====="); } }</pre>
Output	<pre>D:\WorkSpaces\Java\Assignments\Tut_1_2026>javac BusinessCard.java D:\WorkSpaces\Java\Assignments\Tut_1_2026>java BusinessCard ===== Kishan Software Engineer Tech Solutions Inc. Email: kishan@tech.com Contact: 1234567890 =====</pre>
Q7	Write a Java program to display a restaurant menu with item names and prices using print() and println().
Code	<pre>class RestaurantMenu { public static void main(String args[]) { System.out.println("***** MENU *****"); System.out.print("1. Margherita Pizza"); System.out.println(" 1299"); System.out.print("2. Cheeseburger "); System.out.println(" 899"); System.out.print("3. Caesar Salad "); System.out.println(" 650"); System.out.print("4. Iced Tea "); System.out.println(" 250"); System.out.println("*****"); } }</pre>

Output	<pre>D:\WorkSpaces\Java\Assignments\Tut_1_2026>javac RestaurantMenu.java D:\WorkSpaces\Java\Assignments\Tut_1_2026>java RestaurantMenu ***** MENU ***** 1. Margherita Pizza 1299 2. Cheeseburger 899 3. Caesar Salad 650 4. Iced Tea 250 *****</pre>
Q8	Write a Java program to display a student result report containing Student Name, Roll Number, Subject Names, and Marks.
Code	<pre>class ResultReport { public static void main(String args[]) { System.out.println("Student Name: Vishal"); System.out.println("Roll Number: 1045"); System.out.println("-----"); System.out.println("Subject Marks"); System.out.println("-----"); System.out.println("Mathematics 95"); System.out.println("Science 88"); System.out.println("English 92"); System.out.println("History 78"); System.out.println("-----"); } }</pre>
Output	<pre>D:\WorkSpaces\Java\Assignments\Tut_1_2026>javac ResultReport.java D:\WorkSpaces\Java\Assignments\Tut_1_2026>java ResultReport Student Name: Vishal Roll Number: 1045 ----- Subject Marks ----- Mathematics 95 Science 88 English 92 History 78 -----</pre>
Q9	Write a Java program to print a company employee ID-card format containing Employee ID, Name, Department, Designation, and Location.

Code	<pre>class IDCard { public static void main(String args[]) { System.out.println("-----"); System.out.println(" Global Tech Corp"); System.out.println("-----"); System.out.println("Employee ID : EMP-9921"); System.out.println("Name : Rahul"); System.out.println("Department : Development"); System.out.println("Designation : Backend Developer"); System.out.println("Location : New York Office"); System.out.println("-----"); } }</pre>
Output	<pre>D:\WorkSpaces\Java\Assignments\Tut_1_2026>javac IDCard.java D:\WorkSpaces\Java\Assignments\Tut_1_2026>java IDCard ----- Global Tech Corp ----- Employee ID : EMP-9921 Name : Rahul Department : Development Designation : Backend Developer Location : New York Office -----</pre>
Q10	Write a Java program to display a product invoice containing Product Name, Quantity, Price, and Total Amount as fixed values.
Code	<pre>class Invoice { public static void main(String args[]) { System.out.println("====="); System.out.println(" INVOICE"); System.out.println("====="); System.out.println("Product Name : Wireless Mouse"); System.out.println("Quantity : 2"); System.out.println("Price : \$25.00"); System.out.println("-----"); System.out.println("Total Amount : \$50.00"); System.out.println("====="); } }</pre>

	<pre>} }</pre>
Output	<pre>D:\WorkSpaces\Java\Assignments\Tut_1_2026>javac Invoice.java D:\WorkSpaces\Java\Assignments\Tut_1_2026>java Invoice =====</pre> <pre> INVOICE =====</pre> <pre>Product Name : Wireless Mouse Quantity : 2 Price : \$25.00 ----- Total Amount : \$50.00 =====</pre>
Q11	Write a Java program to print a mobile application welcome screen containing the application name, version, developer name, and available features.
Code	<pre>class AppWelcome { public static void main(String args[]) { System.out.println("*****"); System.out.println(" Welcome to FitTrack"); System.out.println(" Version 2.4.1"); System.out.println(" Developed by: HealthDevs"); System.out.println("*****"); System.out.println("Available Features:"); System.out.println("- Daily Step Counter"); System.out.println("- Calorie Tracker"); System.out.println("- Workout Plans"); System.out.println("- Community Leaderboard"); System.out.println("*****"); } }</pre>

Output	<pre>D:\WorkSpaces\Java\Assignments\Tut_1_2026>javac AppWelcome.java D:\WorkSpaces\Java\Assignments\Tut_1_2026>java AppWelcome ***** Welcome to FitTrack Version 2.4.1 Developed by: HealthDevs ***** Available Features: - Daily Step Counter - Calorie Tracker - Workout Plans - Community Leaderboard *****</pre>
Q12	Write a Java program to display a bank account summary containing Account Holder Name, Account Type, Branch, and Account Number using print statements.
Code	<pre>class BankSummary { public static void main(String args[]) { System.out.println("--- Bank Account Summary ---"); System.out.print("Account Holder Name : "); System.out.println("Rahul"); System.out.print("Account Type : "); System.out.println("Savings"); System.out.print("Branch : "); System.out.println("Main Street"); System.out.print("Account Number : "); System.out.println("XXXX-XXXX-XXXX-4589"); System.out.println("-----"); } }</pre>
Output	<pre>D:\WorkSpaces\Java\Assignments\Tut_1_2026>javac BankSummary.java D:\WorkSpaces\Java\Assignments\Tut_1_2026>java BankSummary --- Bank Account Summary --- Account Holder Name : Rahul Account Type : Savings Branch : Main Street Account Number : XXXX-XXXX-XXXX-4589 -----</pre>

Q13	Write a Java program to print a job vacancy advertisement containing Company Name, Job Role, Required Skills, Experience, and Location.
Code	<pre>class JobAdvertisement { public static void main(String args[]) { System.out.println("### JOB VACANCY ###"); System.out.println("Company Name : Innovate AI"); System.out.println("Job Role : Data Scientist"); System.out.println("Required Skills: Python, SQL, Machine Learning"); System.out.println("Experience : 3+ Years"); System.out.println("Location : Remote"); System.out.println("#####"); } }</pre>
Output	<pre>D:\WorkSpaces\Java\Assignments\Tut_1_2026>javac JobAdvertisement.java D:\WorkSpaces\Java\Assignments\Tut_1_2026>java JobAdvertisement ### JOB VACANCY ### Company Name : Innovate AI Job Role : Data Scientist Required Skills: Python, SQL, Machine Learning Experience : 3+ Years Location : Remote #####</pre>
Q14	Write a Java program to design a software project dashboard displaying Project Name, Team Members, Technology Used, Project Status, and Version.
Code	<pre>class ProjectDashboard { public static void main(String args[]) { System.out.println("[SOFTWARE PROJECT DASHBOARD]"); System.out.println("Project Name : E-Commerce Portal"); System.out.println("Team Members : Dhaval, Raj, Rahul, Yash"); System.out.println("Technology Used: Java, Spring Boot, React, PostgreSQL"); System.out.println("Project Status : In Progress (75% Complete)"); System.out.println("Version : 1.0.0-beta"); System.out.println("-----"); } }</pre>

Output	<pre>D:\WorkSpaces\Java\Assignments\Tut_1_2026>javac ProjectDashboard.java D:\WorkSpaces\Java\Assignments\Tut_1_2026>java ProjectDashboard [SOFTWARE PROJECT DASHBOARD] Project Name : E-Commerce Portal Team Members : Dhaval, Raj, Rahul, Yash Technology Used: Java, Spring Boot, React, PostgreSQL Project Status : In Progress (75% Complete) Version : 1.0.0-beta -----</pre>
Q15	Write a Java program to generate a professional employee payslip format using only print() and println().
Code	<pre>class Payslip { public static void main(String args[]) { System.out.println("====="); System.out.println(" EMPLOYEE PAYSIP"); System.out.println("====="); System.out.println("Employee ID : EMP-101"); System.out.println("Employee Name : Rahul"); System.out.println("Department : Human Resources"); System.out.println("-----"); System.out.println("Basic Salary : 4000.00"); System.out.println("Allowances : 800.00"); System.out.println("Deductions : 300.00"); System.out.println("-----"); System.out.println("Net Salary : 4500.00"); System.out.println("====="); } }</pre>

**Output**

```
D:\WorkSpaces\Java\Assignments\Tut_1_2026>javac Payslip.java

D:\WorkSpaces\Java\Assignments\Tut_1_2026>java Payslip
=====
                EMPLOYEE PAYSLIP
=====
Employee ID    : EMP-101
Employee Name  : Rahul
Department     : Human Resources
-----
Basic Salary   : 4000.00
Allowances     : 800.00
Deductions     : 300.00
-----
Net Salary     : 4500.00
=====
```
